EXPERIENCE

Senior Frontend Software Engineer — Perficient

Feb 2022 — Present

React & Next.js on Caterpillar's Parts.Cat.Com (PCC) platform, within a global team of ~300 developers.

- Modernize and maintain a large-scale parts-purchasing experience for Caterpillar machinery.
 - Collaborate daily with teammates worldwide on complex frontend delivery.
-

Frontend Developer — Recursiva SRL

Jan 2021 — Feb 2022

React web app for online payments; React Native apps for a plant-genetics company group.

- Built and maintained production web and mobile features with cross-functional teams.
 - Strengthened engineering habits through code review, mentoring, and professional delivery practices.
-

Internship — Municipality of Capitán Sarmiento

Earlier

Full-stack civic software: public website, WordPress content portals, helpdesk, Android companion app, and emergency alerting.

- Launched the town's first website (HTML, CSS, Bootstrap, JS, PHP) on AWS EC2 + Apache.
- Customized osTicket helpdesk and trained agents; shipped "Atención al Vecino" (Android/Java) and "Sarmiento Seguro" (React Native + React/Node monitoring).
